Dear friends,

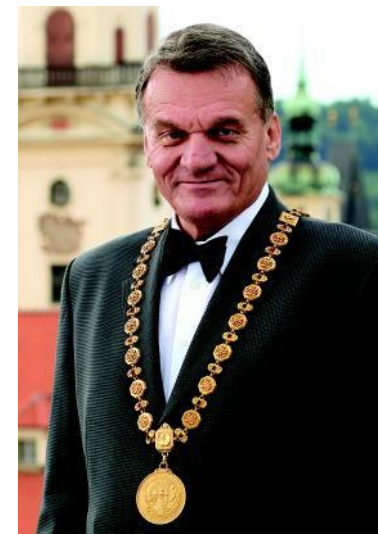

Prague is a city that is noted for its exceptional culture and historical tradition. When they hear Prague mentioned, most people that have visited the city will recall its charming historic monuments. Diverse architectural styles blend together in remarkable symbiosis and create an inimitable atmosphere. Despite that, people often forget that Prague has been a major centre of science, education and the arts since early medieval times.

Prague has inspired scientists and artists for whole centuries. It is the city upon which Alfons Mucha bestowed his Slavonic Epic, the city for which Mozart composed Don Giovanni. It is the mysterious city whose crooked lanes served as the inspiration for Franz Kafka's novels.

Johann Wolfgang von Goethe said that Prague was the most precious jewel in the crown of cities. He was certainly not exaggerating. So accept my cordial invitation to visit this unique gem in the heart of Europe. I believe you will be also enchanted by Prague.

Bohuslav Svoboda

Lord Mayor of Prague

Dear guests,

Welcome to Prague, a beautiful city that combines a rich historical heritage with a prosperous modern identity.

Our city benefits from many given advantages: a central location in the heart of Europe, numerous cultural and historical attractions and an animated and dynamic social environment. On top of that, we are committed to making the most of these advantages through a continuous personal investment: expanding municipal infrastructure, diversifying facilities both for business and leisure and improving conditions for a productive and sustainable lifestyle.

Prague offers a full package of top-notch services. Its international airport serves over ten million travelers each year, a wide network of hotels with state of the art conference facilities, restaurants that cater to the most spoiled of palates while offering traditional Czech cuisine and many cultural activities. Prague's nightlife is a vibrant experience, whether at a rock concert or a classical music concert, a traditional beer pub or a wine-cellar, as well as fabulous theatre performances.

I encourage you to discover the many faces of Prague. Should you choose this city for a business trip with your partners or for a holiday with your family, I hope that your visit will be a pleasant and memorable one.

Relations and Tourism

At the same time, it is a fast developing and dynamic city where you can find listed objects standing next to modern buildings designed by world-famous contemporary architects. This symbiosis of the old and the new is what makes Prague an attractive place both for history lovers and for the organizers of congresses and incentive events. Let it Inspire You!

Prague InSpires

Let Prague inSpire you, just like in the past it inSpired many significant artist and scientists. The city's mysterious atmosphere reflects in the works of Prague's native son Franz Kafka. W.A. Mozart completed and first performed his best opera Don Giovanni here. The great Czech composer Antonín Dvořák spent most of his life here. Prague also became an important university centre which gave the world a number of personalities without whose discoveries and inventions we could hardly imagine our life today. Prague is never "off season". It is inherently linked with excellent operas, concerts, theatre and ballet performances. Every year, Prague hosts the Prague Spring festival, a renowned gathering of the world's best classical musicians, a number of international film festivals, Prague International Jazz Festival and many other major cultural events. Prague is a true cultural treasure trove, bursting with fascinating museums, galleries, theatres, and music venues. The city regularly plays host to numerous prestigious exhibitions, events, and more international festivals than you can shake a very large stick at.

Meet in Prague!

Prague has a history going back one thousand years. It was the seat of kings and emperors in the past and today it is the seat of the Czech president. It is a city whose name is associated with famous people and the history of the Czech state. Prague, whose beauty was greatly admired back in the Middle Ages, has been referred to as the City of One Hundred Spires, Golden Prague, Magical Prague and the Mother of Cities. Cultural and historic monuments

Prague has many historic monuments and cultural heritage sites. Many of the most significant and oldest of them are situated along the so-called Royal Route, which leads through the old city centre. It gained this name in the Middle Ages as it was the route taken by the royal procession during the coronation of Bohemian kings. The procession left from the former royal residence, the so-called Royal Court, which was situated where the Municipal House now stands. It ended at St Vitus, St Wenceslas and St Adalbert Cathedral at Prague Castle, which is where the coronation was carried out. You should manage to see all the main sights along the route during one day. They include:

Municipal House – Art Nouveau building from the beginning of the 20th century. It houses the famous Smetana Hall, where the most important concerts in Prague are held, and a large art gallery.

Powder Tower – an entrance gate to the Old Town and one of the symbols of Prague. Building was commenced in 1475 and it was later reconstructed in pseudo-Gothic style.

House at the Black Madonna – a wonderful example of Cubist architecture. It houses Museum of Czech Cubism.

Ungelt – Týn Court – one of the historically most valuable parts of Prague where foreign merchants used to gather from the 9th to the end of the 16th century.

Týn Church (Church of Our Lady before Týn) – high-Gothic building from the year 1365. It contains the tomb of astronomer Tycho Brahe.

House at the Stone Bell – one of the oldest Gothic heritage sites in Prague. Today, it is used by the Prague Municipal Gallery for exhibitions of modern and contemporary art.

Old Town Hall – built in 1338, it includes a Gothic tower and gallery from where there is a beautiful view of the Old Town.

Old Town astronomical clock – one of the best-known monuments in Prague. It dates back to the 15th century and is on the Gothic tower of the Old Town Hall. Every hour on the hour (9.00 – 21.00), the bell starts ringing and the Apostles appear in the window above.

Klementinum – the second largest building complex in Prague. It was originally a Jesuit monastery, but today houses the National Library.

Old Town Bridge Tower – a veritable gem of Gothic architecture, built at the end of the 14th century. There is a lookout gallery at height of 18 metres from where there is a breathtaking view over Charles Bridge, the Old Town and Prague Castle.

Charles Bridge – the oldest preserved bridge in Prague. It is protected at both ends by the Old Town and Lesser Town Bridge Towers. It has 30 Baroque statues from the beginning of the 18th century. They depict saints, and historical and biblical characters.

Lesser Town Bridge Tower – there are two towers at the Lesser Town end of Charles Bridge. The smaller Romanesque tower has been preserved from the times of the former Judita Bridge, while the higher Gothic tower is from the middle of the 15th century.

St. Nicholas Church – one of the most significant buildings of Prague Baroque with richly decorated interior. It was completed in the middle of the 18th century.

Prague Castle – the most visited monument in the Czech Republic. This used to be the seat of Bohemian kings, and today is the seat of the Czech President. The castle complex also includes a monumental cathedral, the Old Royal Palace, and small houses in Golden Lane where Franz Kafka also lived and worked.

St Vitus, St Wenceslas and St Adalbert Cathedral – the largest and most important cathedral in Prague and the spiritual symbol of Czech statehood. Building started under the rule of Charles IV in 1344 and was completed and consecrated six centuries later in 1929.

From the very outset of your trip, you can travel in luxury and be picked up and brought to the airport directly in a chauffeur-driven Skoda Limousine.

VIP Service includes spending time in your lovely lounges. What does that mean for travellers?

In brief, it means passenger comfort, convenience, privacy, and stress-free flying. There's almost nothing that passengers using the VIP Service Club CONTINENTAL need to do at the airport. We take care of all the necessary pre-departure formalities while the traveller enjoys comfort,

convenience, and refreshment in the luxury environment of our lounges. Our services also include four days' free-of-charge parking in the VIP parking lot (for departures and arrivals) or the use of our Skoda Limousine Service.

And what does passenger check-in involve under the programme?

Passengers using our services don't have to go to the check-in counters in the terminals, but rather come straight to us. The VIP Service includes quick, private check-in not only of the passenger, but also the passenger's luggage, as well as independent security checks before leaving for the aircraft. We also take our clients directly to the aircraft via apron and they will board separately. When they fly back in, they get the same treatment. After the aircraft has landed at Prague Airport, a car is waiting to take them directly to the Club CONTINENTAL, where their luggage will also be brought.

Who makes the most use of your services?

Anyone who values time and who appreciates privacy and quiet can make use of our services. We also take care of children in our children's play area, so the passenger doesn't have to watch over them. Our services, I assure you, aren't just used by celebrities and business people. They're used by hundreds of modern passengers, including families with children.

Czech Airlines – at home in the sky

Czech Airlines is the flagship airline of the Czech Republic, having provided services since October 1923, thus making it one of the five oldest airlines in the world. Czech Airlines provides connections from the country's capital, Prague, to most European metropolises, but also to major destinations in the Middle East and Central Asia. Czech Airlines will carry you quickly and comfortably to any of the main business and political centres, as it has made operating to major airports its primary focus. In cooperation with its partners, Czech Airlines also offers connections to 90 destinations in 46 countries around the world.

In addition to carrying passengers on scheduled flights, the Czech Airlines Group also provides related and highly specialised services through its subsidiaries. For tour operators and other contractual partners, the subsidiary HOLIDAYS Czech Airlines operates charter flights, special flights, and VIP flights to attractive destinations in Europe, Africa, and the Near East. The subsidiary Czech Airlines Handling provides passenger and aircraft handling, not only for Czech Airlines' flights, but also for flights of numerous other airlines. Czech Airlines pays extraordinary attention to the technical maintenance of aircraft, which is provided through another of its subsidiaries, Czech Airlines Technics. Czech Airlines also provides crew training in its own training centre, and also offers the carriage of air cargo and post.

The SkyTeam Alliance

Since 2001, Czech Airlines has been a member of the SkyTeam airline alliance, which now has 14 members. The airline's clients can thus take advantage of the extensive worldwide network of transfer points of the SkyTeam member airlines – more than 14,000 flights depart each day for 916 destinations in 169 countries around the world.

Home Base at Prague Ruzyně Airport

Czech Airlines operates most of its flights from Prague Airport, which boasts an ideal geographic position at the very heart of Europe – passengers can quickly, effortlessly, and comfortably transfer to other connecting flights. The centre of Prague, which is approximately 30 minutes from the airport, can be reached by several public transit lines.

A Modern Fleet

Czech Airlines operates modern aircraft – Airbus A319, A320 and A321, Boeing B737-500, and ATR 42 – with an average age of just over 8 years. In the next few years, another 7 brand new Airbuses will join the fleet, gradually replacing the oldest aircraft, which will then allow Czech Airlines to boast one of the youngest fleets in Europe.

Individualised Approach and Professional Service

Thanks to its many years of experience and its professional approach, Czech Airlines is highly acclaimed by its clients for the quality of services that it provides. Czech Airlines can offer special individualised conditions to larger groups of passengers, such as to those attending conferences and conventions, giving passengers the opportunity to take advantage of group or frequent-flyer discounts to specific destinations. For special offers, they can contact the airline's Sales Department by e-mail at: katerina.vladarova@csa.cz.

Where History Meets the Future

PRAGUE
CONVENTION
BUREAU

Traditionally modern

Prague is rich in architectonic monuments, cultural heritage and historical sights, but at the same time it is modern and dynamic. The Czech capital has a wide range of different congress and conference facilities equipped with the latest technology offering high quality. The city is a real cultural centre of Europe whose breathtaking atmosphere is unforgettable. You can find here monumental historical palaces and townhouses standing next to the contemporary architecture. In 1348, Charles University became the first such institution in Central Europe, and it immediately began attracting great minds to the city. Culture's role was of course somewhat depleted during the dark days of communist rule, but the Velvet Revolution - initiated by several peaceful Charles University student demonstrations - allowed creativity to take on forms other than that allowed by the authorities. Today, Prague once again shines brightly and proudly as a cultural and dynamic beacon. As a city to party, create modern art, exhibit, or perform in, it knows no equal, and this is reflected in the vast range of events. One of the most vibrant cities in Europe, big enough to excite, cozy enough to relax in, all this together makes Prague an extraordinary attractive place which is worth seeing.

“Prague typifies dynamic Central Europe, which knows how to make good use of all its qualities. It is romantic and sophisticated, and the place for diverse festivals and festivities. The Czech capital has a fine cultural heritage that plays a major role in incentives and events.”

PRAGUE
CONVENTION
BUREAU

Aged to perfection

In Prague you can see progress in every detail. The city can boast of its perfect public transportation system, amenities and a wide range of first-class services. Its offer of conference venues is excellent and varied, too. You can choose from modern conference centres with state-of-the-art technologies - which have hosted NATO, IMF and EU meetings - and historical jewels in the city centre. Organizing conferences in Prague has a long tradition, from major communist meetings to modern summits. The latter show that the art of meetings management has been perfected. Together with top culinary art provided by local restaurants and catering companies your event will be a success!

Czech restaurants can offer both traditional and international cuisine, and all will find something to suit them. Traditional Czech cuisine is markedly influenced by the geographical location of the country. It has always been based on ingredients that could be grown at home, chiefly cereals, legumes, potatoes and meat.

Traditional main courses: Roast goose or duck with sauerkraut; beef in vegetable and cream sauce with dumplings; poultry, carp or trout and potatoes; Apple strudel as dessert.

Beer is the Czech national drink and an excellent accompaniment to Czech meals. Czech beer is world famous and has a long tradition – you can find over 470 types of beer here, such as Staropramen, Budweiser Budvar, Pilsner Urquell and so on.

Czech white wines come mostly from Moravia's vineyards and frequently receive awards at international competitions.

A popular **Czech aperitif** is the herbal liquor called Becherovka, produced in Karlovy Vary. A favorite Moravian aperitif is plum brandy called "slivovice".

"The city is a regular fixture in tourism Top 10s in Europe, due to its varied and rich historical architecture, compact layout, nightlife and, of course, world-renowned breweries."
